Sir

In accordance with 37 CFR 1.97(b)(3) the material set forth on the enclosed PTO/SB/08a form is brought to the attention of the Examiner. The enclosed document DE 1,243,695 does not appear to have an English language abstract or equivalent. It appears to depict an inking or dampening unit, as seen in Fig. 2, with a fluid reservoir at the top left of the drawing. A train of rollers are usable to deliver the liquid to the cylinder 29. Note that the assembly can be pivoted about a pivot axis 34, as seen in Figs. 3 and 4, by operation of a lever 28.

This document was cited by the German Patent Office in an Office Action in the corresponding German application. That Office Action was dated March 15, 2007. It is believed that the other documents cited in that German Office Action are already of record in the subject application as a result of the Information Disclosure Statement
